

- Presentations will be no more than 6-8 minutes in duration. They will be timed.
- Who presents? the group decides. You can divide the time you have between more than one person or choose to go with one. This is entirely up to you. There are no marks for presenting.
- Presentations should contain the **major conclusions** of your project, and how these are **connected to STS** as understood through the readings and lecture-discussions.
- You will be marked on the quality of your content (are the connections strong?), and on the quality of the form (how visually organized/creative is your presentation?)
- The total group marks for the group presenting **10: 5** for the presentation, and **5** for your response to the questions by the 2 groups listening and responding to you.
- The 'Response Groups' will also be marked on the quality of their questions: (**2.5 x 2= 5**). Each group will ask **one question**.
- Anyone from the group may ask the question, and anyone may respond. All groups have to be present; we will be marking the attendance.
- The Response Groups will leave the room after their questions have been answered.

# PRESENTATIONS

## STS

2023-24

- I will call out the names of members of the Presentation Group one after the other for their individual viva.
- The viva can last between 3- 10 minutes, depending on your responses. You should leave the room after your viva is concluded.
- My questions can be about the project, class lectures, readings, connections between them- some combination or all of these.
- Questions may be answered in Hindi/Gujarati/English- or a mix of these, whichever you are comfortable with.
- Vivas are worth **15 marks**.
